WICHITA MARKETS.

Receipts of live stock at the Union Stock Yards for 24 hours-40 cattle, 582 hogs, and for the week just closed 639 cattle, 2002 hogs. Quite a falling off in cattle receipts, but a gain of 1,171 hogs over the previous week, and a gain of 505 hogs over the week before, which was the banner week in the history of the yards. Cattle receipts again very light and market stronger. There were some very fine butcher cattle among he offerings; also some stockers and feeders. Everything sold at good figures. The hog market opened steady at yesterday's closing prices and all the car hogs sold at that price, \$3.62 1-2. The market closed steady to strong. Some shippers held their hogs over for Monday's market expecting to get better prices. Chicago market was steady and Kansas City closed strong.

The addition to the new yards is progressing nicely and is assuming large pro

portions. It is surprising how things do spread around the new live stock market of the southwest.

J. K. McGregor has been one of the heaviest and strongest cattle buyers on the market all week. "Mac" is a good buyer and knows the weight, quality and value of cattle as well as any man around the yards.

Aub the Baby to Sleep. A matron, who has an average of fifty babies in her care every year, advises rubbing as a means of quieting a restless child and getting a nervous one to sleep. Her plan is to strip the morsel of humanity, sponge it off with topid soapy water, dry it thoroughly with a soft towel and, beginning at the little pink soles, rub it all over. At first there may be rebellion, but gradually it will subside, the youngster will begin to purr and "goo" with enjoyment, and under the sooth ing influence of magnetism it will drop off to sleep, rest well and wake up in the morning refreshed and cheerful. The value of this operation can be varied by rubbing the little limbs and body up and down until the fieth becomes warm and pink one time and the next day having the motion retary-that is, take the delicate ankle in one-hand, wrapping the fingers as closely about it as possible and not hurt the child. In this way work up and down the legs and arms until the child becomes quiet. The body may be rubbed r stroked in the same way. This massage treatment of the tonsils, threat and chest with the hand moistened with campborated oil or vaseline, will ward of the throat trouble or relieve a cold.—New York World.
